

MIKE'S CORNER

This booklet provides information to maximize guests' enjoyment while staying at Gaido's Seaside Inn and Mike's Corner.

Access

FRONT DOOR:

- The front door to Mike's Corner is located on the north side of the building.
- The door is accessible using a key card.
- The north side is opposite to the Gulf of Mexico.

LAUNDRY ROOM

- The door to the room where the washer and dryer are located is on the north side adjacent to the front door.
- The same key card that opens the front door also grants access to the laundry room.

Security

- Keep the front door and laundry room door locked at all times for your safety and the safety of your personal belongings.
- When you leave the room or go to bed, please lock the southside glass door by turning the locking knob counterclockwise.

Air Conditioning and Heating

- Mike's Corner has a central air conditioning and heating system.

- There is one master on-and-off control for the system located on the outside wall of the bathroom.
- To improve the ability of the air conditioning system to cool the room, it's recommended to keep the doors closed, curtains drawn over the south side window, and the louvers closed on the south side door.

Television

- Bathroom TV: A hidden television is installed in the bathroom mirror for your convenience while doing makeup, brushing your teeth, or taking a bath. The glass doors can slide open to allow unobstructed viewing from the bathtub. Use the DirectTV remote marked "Bathroom" to operate this TV. Instructions and the remote are located on the bathroom vanity.
- Bedroom TV: To operate the television in the bedroom, use the DirectTV remote marked "Bedroom." Instructions and the remote are located on one of the nightstands.

Music

- Turn on the Pioneer music player using either the remote control or the power button located on the left of the player itself.
- Make sure "Bluetooth" is displayed on the music player display screen by using either the small knob on the music player or pressing the "BT Audio" button on the remote control.
- Turn on Bluetooth on your smartphone and select "Pioneer VSX" as your Bluetooth device.
- Once your smartphone recognizes the Pioneer music player, you may play your desired music through the room's speaker system.
- Use the remote to control the volume as well as play and pause your music. Use the large knob on the right of the music player to control the volume.
- Two sets of speakers have been provided for your enjoyment. One set of speakers is located on either side of the television in the bedroom. Another set of speakers is located on the front porch.

Bathroom

- Top left knob (when facing the rear wall): This knob controls water flow to two showers. Pull the knob to turn on the water. If pointing up, it activates the wall shower to your left. If pointing down, it activates the ceiling shower above you.

- Bottom left knob: This knob controls the water temperature for both the wall and ceiling showers. Turn the knob to the left for hotter water and to the right for colder water.
- Top right knob: This knob controls water flow to the tub and movable shower. Pull the knob to turn on the water. If pointing up, it activates the movable shower head. If pointing down, it activates the tub faucet.
- Bottom Right knob: The knob above controls the water temperature of the tub and movable shower. Turn to the left for hotter water. Turn to the right for colder water.
- The soaking tub in the bathroom has an adjustable faucet with a flexible hose that can be used for bathing or as a hand-held or fixed shower.
- There are four different shower options: a stand-up traditional shower head, an overhead rainfall option, a sit-down shower option with a bench, and a soaking tub with its own television set.

Spa

The spa has 4 buttons:

1. **Jets** - Turns the pumps on and off. They will automatically turn off after 15 minutes.
2. **Light** - Turns the lights on and off. They will automatically turn off after 4 hours.
3. **Warm** - Increases the water temperature and displays the set temperature. Keep the cover in place to maintain the desired temperature when the spa is not in use.
4. **Cool** - Decreases the water temperature and displays the set temperature.

To use the spa responsibly:

- Use the spa with a partner for safety.
- Enjoy alcoholic beverages after using the spa, not before or during. Drink plenty of cool water instead.
- Exit immediately if you feel uncomfortable, dizzy, or sleepy.
- Before entering the spa, check the temperature. A water temperature of 100°F is considered safe for a healthy adult. The water temperature should never exceed 104°F.
- Read the hypothermia warning sign and the spa warnings and regulations sign on the wall near the spa.

Washer and dryer

For guests' convenience, a washer and dryer are available for their exclusive use. The machines can be accessed outside next to the front (northside) entrance, behind the door to the left. To operate the washing machine, guests need to turn on the machine by pressing the

POWER button on the top left-hand corner, pour detergent and/or bleach in the cup provided, select the rinse cycle, and press the START button. Similarly, to operate the dryer, guests need to turn on the machine, select the dry cycle, and press the START button.

If guests require any assistance, explanation, or reassurance about any of the instructions provided, they can call the front desk at 409-761-5504.
